

## Description

Spray on protection against moisture for moulds and metal tooling

IS70 is an effective moisture repellent, formulated to provide an ultra-thin green film for protection from corrosion of moulds and tooling whilst in store.

## Outstanding Features

- Suitable for use on all metals
- De-watering capability
- Protects from oxidation and rusting
- Ultra-fine film does not interfere with precision-fit parts or with gauging and measurement
- Green colour to show treated parts
- Resists creeping into ejector pins
- Moulds off quickly

## Directions for Use

Shake can well before use. Spray an even coating onto surface from 30cm. Do not over-apply. Leave to dry to an even, visible film.

## Technical Data

Appearance	Dark green viscous liquid drying to a thin green coating
Odour	Slightly sweet
Contents	Blend of refined mineral oils, sarcosine and imidazoline surfactants, sulphonate modified hydrocarbon and paraffin waxes in white spirit and naphtha calcium sulfanate, methanol, dye and hydrocarbon propellants
Storage	Below 50°C
Flash Point	<0°C
Temperature range	Ambient temperatures
Specific Gravity	0.755
Solubility	Insoluble in water
Pack Sizes	12 x 400ml cans
