Specification Sheet

**listerlube
Slideway Oil 68**

James Lister & Sons Ltd. Spon Lane South, Smethwick, West Midlands. B66 1QJ

General

listerlube Slideway Oil 68 is a machine tool slideway lubricant designed to provide regular oil film pressure distribution enabling smooth relative linear movement between the sliding surfaces whilst resisting water wash-off. It achieves this by using high viscosity index base oils and tacky additives.

Physical Characteristics

Appearance	Clear amber liquid
Odour	Bland
SG @ 15.6°C	0.875 - 0.895
Viscosity @ 40°C	61.2 - 74.8 cSt
Viscosity Index	95
Flash Point (Closed)	195°C (minimum)
Pour Point	-8°C
Meets Cincinnati P47 requirements
